The Honorable Rosa L. DeLauro
Ranking Member
Appropriations Subcommittee on Labor,
Health and Human Services, Education
and Related Agencies
U.S. House of Representatives
Washington, DC 20515

Dear Chairman Rehberg and Ranking Member DeLauro:

The Agency for Healthcare Research and Quality (AHRQ) funds research and programs at local universities, hospitals, and health departments that improve health care quality, enhance consumer choice, advance patient safety, improve efficiency, reduce medical errors, and broaden access to essential services—transforming people's health in communities in every state around the nation. To support these efforts, the Friends of AHRQ urges you to provide AHRQ \$405 million in FY 2012—a two percent increase over FY 2010 enacted levels.

The science funded by AHRQ provides consumers and their health care professionals with valuable evidence to make the right health care decisions for themselves and their families. AHRQ's research also provides the basis for protocols that prevent medical errors and reduce hospital-acquired infections, and improve patient confidence, experiences, and outcomes in hospitals, clinics, and physician offices.

Our modest request of \$405 million is not indicative of our nation's true need for evidence about health care delivery. Instead, our request balances your goal to restrain increases in federal spending while sustaining momentum to generate more and better evidence and make a measurable difference in health care for all Americans. The Friends of AHRQ thanks you for your ongoing support and looks forward to helping you further strengthen the agency.

The Friends of AHRQ is a coalition of health professional, research, consumer, and employer organizations dedicated to ensuring the agency's continued vital role in improving our nation's health.
