

Please join us for our **NEBASM/NEAACC Joint Dinner Event** for:

Wastewater Intelligence as Public Health Infrastructure

With

Mariana Matus, PhD

CEO and Co-Founder at Biobot Analytics

March 16, 2023, at 6:00 PM

Scan QR code to RSVP and get for more info!

Mariana Matus is the CEO and co-founder of Biobot Analytics. Originally from Mexico City, Mariana received her Ph.D. from the Department of Biological Engineering at MIT in Computational Biology, where she specialized in the emerging field of wastewater epidemiology. In addition to her doctoral studies, Mariana cofounded the MIT Underworlds Smart Sewers Project, leading the vision and funding for an interdisciplinary research project with collaborators from MIT's Department of Urban Studies and Planning. This work led to the creation of Biobot Analytics and set the scientific foundation for Biobot's wastewater platform—now serving the CDC and communities across all 50 US states. Mariana plans to expand Biobot's venture-backed platform into countries all over the globe.

Several awards have recognized Dr. Matus for her leadership and entrepreneurial excellence. In 2020, she was named to the C&EN Trailblazing Women in Chemistry. She made Newsweek's list of America's 50 Greatest Disruptors in 2021 and their list of America's 50 Enterprising Idealists in 2022. Boston Globe named Dr. Matus #8 on their inaugural 50 Tech Power Players list for 2022, and most recently, she was honored to be featured on the 2022 TIME100 NEXT list as an industry innovator.

EVENT LOCATION

**Holiday Inn Boston-Dedham Hotel
& Conference Center**
55 Ariadne Road, Dedham, MA 02026
